Professional Summary

Front-End Developer with 2+ years of professional experience building secure, scalable, and high-performance web applications using React.js and Vue.js. Strong expertise in modern JavaScript (ES6+), component-based architecture, state management with Redux, and API integration. Focused on performance optimization, SEO, accessibility, and clean code practices.

Education

- **Faculty of Science , Computer Science** Department, Cairo University.(Graduated In 2022)

WORK EXPERIENCE

03/2024 – present   **Front-End Developer (Zinad-IT)**

- Developed and maintained high-performance web applications using **Vue.js**, and **React**.
- Utilized **PHPWord** to generate dynamic Word (DOCX) documents programmatically based on application data, improving document generation efficiency and consistency.
- Developed fully custom UI pages from scratch using React and Vue, without relying on pre-built UI templates.
- Used **DomPDF** to generate dynamic PDF documents from HTML templates based on application data.
- Implemented new features and refactored legacy components, improving code maintainability.
- Reviewed pull requests and paired with team members, improving code quality and team collaboration.
- Developed interactive and responsive user interfaces following modern UI/UX practices.

Side Projects

- **E-Commerce using React.js:**
  Built a React.js e-commerce clothes from scratch, focusing on SEO and performance optimization.
- **Gym using React.js:**
  Built a Gym Website using React.js from scratch, focusing on Design and SEO.
- **JavaScript Crud Project:**
  Developed a CRUD using pure JavaScript, leveraging DOM manipulation, event listeners, and efficient state handling to manage tasks dynamically without external frameworks.
- **Memory Game using JS:**
  Built a memory game using pure JavaScript without external frameworks

Courses and Trainings

01/2022 – 04/2022   **Data Analysis trainee (Faculty of Science)**
- Completed a Data Analysis training at Cairo University Faculty of Science, applying analytical methods to real datasets and improving data-driven thinking.

02/2021 – 10/2021   **Full Stack Developer (Route Academy)**
- Built backend functionality using Node.js.
- Worked with MongoDB for data storage and management.
- Gained solid hands-on experience in building responsive user interfaces using HTML, CSS, JavaScript, and React**,** following modern frontend best practices.
- Learned component-based architecture in React, including props, state management, and reusable components for scalable applications.
- Worked on real-world projects, improving skills in problem-solving, debugging, and integrating APIs into frontend applications.

10/2020 – 12/2020   **Microsoft Office Advanced (Udemy online courses)**

Technical Skills

Frameworks & Libraries
React.js • Vue.js • JavaScript (ES6+)

Styling & UI
Tailwind CSS • shadcn/ui • Bootstrap • Responsive Design

State Management & APIs
Redux • Axios • AJAX

DevOps & Tools
Docker • Git • GitHub

Web & Application Security
Experience in resolving security reports and frontend vulnerabilities in security-focused projects
